

Scenario - Activity 9: Grounded GenAI for Standard Work

Maintenance knowledge is split across manuals, approved work instructions and technician notes. Orion wants a copilot to draft troubleshooting guidance.

Questions

1. Which sources are authoritative?
2. What must the model refuse to infer?
3. Which fields require exact citation?
4. Who releases the final instruction?

Known facts versus assumptions

Statement	Fact / calculation / report / assumption	Evidence source	Confidence
